- 3 On reaching the middle of the hall the team will split, the first boy turning right, the second left, the third right and so on. When they reach the sides of the hall, each team turns left. When they reach the corner, the teams head diagonally across the hall, aiming to collide in the middle.
- 4 When they reach the centre of the hall, the teams turn to the left, passing right shoulders and then heading along the centre line of the hall to the ends.
- 5 At the end of the hall the teams turn left, heading back towards the middle of the hall, where they turn right, then right again to head back to the end of the hall, at which point they turn left, then left again and head down the sides of the hall.

- 11 Cross the hall, turn left and march along the side of the hall.
- 12 On reaching the top of the hall the team shall turn left. On reaching the corner the team shall turn left and form a snake diagonally across the hall. The rest of the team will pass between the leading boy and the second boy and continue with the third boy stopping in front of the second boy. *The team should be spaced so that they use the full diagonal of the hall.*
- 13 Once the last boy stops the team should pause for 5 seconds. Then the leading boy will march, passing to the left of the second boy, the right of the third boy and so on. When the leading boy passes the second boy he will march behind the leading boy. When the two boys have passed the third boy he will join the march and so on. On reaching the corner, the team will turn right.
- 14 March along the side of the hall to the middle and turn right to cross the hall. Mark time with the team standing across the hall until the officer gives the command "HALT".
