

Boys' Brigade West Anglia Battalion – Junior Figure Marching Competition 2019

Saturday 7TH December, 1.15 pm, St. John's Methodist Church, Luton LU3 2DN

1. Enter hall and counter march five times in half the hall.
2. Counter march in the other half of the hall four times.
3. March round outside of hall and come up the middle in a single file.
4. At the end of the hall file splits into two with the leader turning to the right and the second turning left (children alternating down the line) and march round outside of hall.
5. Come up the middle of the hall in pairs.
6. The pairs split at the end of the end of the hall back into their single files. (Again the leader going to the right and the second going to the left). At the first corners each file turns and heads towards their diagonal corner (thus the children cross over in the centre of the hall). When the two files reach their opposing corners they turn in towards the middle of the hall.
7. Merge back into single file and come up the centre of the hall (leader in the front).
8. Make a Circle Maze in the centre of the hall, making three decreasing circles anti-clockwise.
9. At the centre of the Circle Maze turn right and make three increasing circles clockwise, ending up heading for the corner of the hall by the doors.

10. March round outside of the hall to opposite corner and form The Snake diagonally across the hall: the leader boy stops a short way in from the corner, the team pass round the leader and the second stops in front of the leader. The rest of the team will pass between the leader and the second and continue with the third stopping in front of the second. The team should be spaced so that they use the full length of the hall. When the last child stops they will raise their hand for 5 seconds.
11. When the last child lowers their hand, the leader will march, passing to the left of the second, the right of the third and so on. When the leader passes the second they will march behind the leader. When the leader and second have passed the third child they will join the march and so on.
12. On reaching the corner of the hall the team will turn left and march across the top of the hall, half way down the side, across the centre, and down towards the bottom right hand corner.
13. March across the bottom of the hall, turn right and march up the side of the hall, marking time when the leader is about 2/3 of the way up the hall, **opposite the hall doors**. "Halt" on the officer's command.
14. Turn right on the officer's command "Turning to the right, right turn.". The inspection will take place at this point.
15. After inspection, on the command "Step forward in turn", the last child in the file takes ONE STEP forward and halts. When they have done that then the second from last takes TWO STEPS forward and halts. This goes through the team to the leader, each one taking one more step MORE than the previous one, thus creating a straight diagonal line across the hall no matter how many there are in your team.
16. When everyone is a diagonal line the boys turn to the left to form a diagonal line (without command).
17. March out of the hall (without command).

Scoring.

For each move in the figure marching routine a total of 5 points are available as follows: 0 points - move missed out; 1 point – move attempted but not correctly completed; 2 points – move recognisable; 3 points – move correct but very messy; 4 points – move correct but a bit ragged; 5 points – move perfect.

In addition, a total of 15 points are available for the team for the inspection at the end of move 13. The team should wear uniform in accordance with Brigade Regulations, i.e. clean black shoes, dark socks, black, dark grey or dark blue trousers, blue BB polo shirt, royal blue BB sweatshirt & armband (boys who have not yet received any awards do not wear an armband).

Notes: Where teams have a number of members that is not divisible by two, "spares" should always adopt the most central position possible. For example, in section 5, when forming into PAIRS, one "spare" should march down the centre of the hall.
